

Technical Note
No. 10A-13

Subject: Installation of c.g. (winch launching) hook
Effectivity: "Bergfalke III" gliders, all serial numbers,
if requested
Reason: The installation of the c. g. (winch launching)
hook has been modified on rebuilt gliders of
this type, according to drawing no. 104 C-11-S12/1,
in order to improve reliability.
If requested, this modification may be applied
to any serial number of this type.
Instructions: The box in which the hook is installed and its
fastening to the fuselage structure have to be
reinforced according to drawing no. 104 C-11-S12/1.
**Weight and
Balance:** Not affected
Remarks: 1. The modification has to be carried out by the
manufacturer or by an aerotechnical workshop
authorized by the manufacturer.
2. The modification has to be certified in the
log book by an authorized inspector.
3. Technical note no. 104 - 2/76 has to be
observed.
